Attachments: 2019-3-27 EPA Manzanilla Letter to Navy Duchnak re Hunters Point Invite April Mtg.pdf

Nina,
Looks like John can give you a call between 1:30-2:30 pm today (4/2) to discuss this upcoming meeting. Let me know if that doesn't work.

Attached is our quick response letter to the Navy's March 15, 2019 letter. Per our conversation, a portion of that letter reads:

"...We typically use the PRG Calculator to assess risks to human health from exposure to radiation, but we can consider other tools after consultation with our headquarters office, in accordance with EPA Guidance."

If you would like to pursue the use of RESRAD, I encourage you to work with my team to start this consultation as soon as possible. This consultation must include full disclosure of your proposed RESRAD assumptions to facilitate efficient, thorough analysis. The length of this process will depend on the Navy providing its draft RESRAD and draft PRG Calculator assessments, with comprehensive technical inputs and explanations."

We are still working to finalize our longer "path forward" letter to the Navy.

Hello, Nina. Happy Monday! Lily is out this week, but I know she wanted to get a new date for this meeting. If there is anything I can do from EPA's end to help identify a new date, please let me know. I'm happy to check calendars over here.

Best,

Subject: We cannot do the 5/1 mtg after all

We have to do the mandatory mgrs training all day. So we need to find another date for CDPH/DTSC/EPA
